Github Profile: <https://timc1325.github.io/>

Tel: +1 6572306683

## OBJECTIVE

Interested in internships that applies data analysis and statistical models to real life datasets, I am looking forward to embracing a technical-focused working environment and gaining hands-on experience.

## EDUCATION

**University of California, Los Angeles**

*Sep. 2022 - Dec. 2023*

*Master of Applied Statistics (GPA 4.00/4.00)*

**University of California, Los Angeles**

*Sep. 2020 - Jun. 2022*

*B.S. Mathematics (GPA 3.65/4.00)*

**University of California, Santa Barbara**

*Aug. 2019 - Aug. 2020*

*Mathematical Science (GPA 3.91/4.00)*

## SKILLS

Programming: Proficient in Python, R. Basic command in Java, SQL.

Languages: Fluent in Mandarin. Basic command in Spanish.

## Project

**Five Major League Prediction, UCLA**

*Project Leader*

*Jan. 2023 - Mar. 2023*

- Scraped soccer statistics website and sorted out the clean data frame format to work with for Pytorch
- Run and compare result from simple ML models (ie. XGBoost) and DL models (ie. CNN, Transformer)
- Fine-tuned hyperparameters using Experimental Design techniques to reach an accuracy of 74.3%
- Made changes on algorithms in functions to enhance the performance on the back end
- Lead the team develop front-end website for user input and demonstration

**Life Expectancy Prediction, UCLA**

*Project Leader*

*Oct. 2022 - Dec. 2022*

- Collected and cleaned data from United Nations into desired format in R
- Lead the team work on exploratory data analysis, regression, cross-validation and variable selection
- Implemented methods including Linear Regression and Logistic Regression to make prediction
- Presented the project with visualizations and analytics.

## EXPERIENCE

**Shanghai Youhui Education & Technology Company, Shanghai, China**

*Online Tutor*

*Oct. 2019 - Jun. 2020*

- Taught high school juniors AP Calculus to improve their problem solving skills
- Reorganized test content and constructed a simplified map of the material
- Solved individual's issue of timing and significantly increased their speed of problem solving

**Heidelberg University, Heidelberg, Germany**

*Jul. 2018 - Aug. 2018*

*Intern, Assisted Researcher in IWR*

- Created a game model with computational visualization skills, assisted by Professor Filip Sadlo
- Managed to simulate gravitational field, consolidated with game ideas using Python
- Presented final space game project to college professors in the field of STEM

## AWARD

**AMC12: Achievement Roll and Honor Roll**

*Feb. 2018 & Feb. 2019*

- Scored top 5% on the American Mathematic Competition 12.

**OHMIO Top 50**

*Apr. 2017 & Apr. 2018*

- Ranked 2.5% on the Ohio Council of Teachers of Mathematics State Competition.
